

CargoSmart Sailing Schedule

CargoSmart Sailing Schedule provides interactive schedules that allow you to accurately plan your shipments with multiple carriers. Users can search for current schedules, make online bookings directly from the schedule results, and receive customized schedules with different origin/destination pairs in a printable format through e-mail.

Online Sailing Schedule

CargoSmart Sailing Schedule is available on the CargoSmart homepage, and in My CargoSmart Center and CargoSmart Desktop. It is integrated with carriers' operational sailing schedules and updated regularly.

Sailing Schedule Search

The screenshot shows a search form titled "Sailing Schedule Search". It includes a "Search by" section with a "My Favorite Query" dropdown, a "Carrier" dropdown, and an "Intended Date Range" section with radio buttons for "Sailing within" and "Arrival within", each with a "2" week selection and a date picker. There are also input fields for "Origin City" and "Destination City", and a "Service" dropdown. A "Group Results by Carrier" checkbox is at the bottom left. "Reset" and "Search" buttons are at the bottom right. A "Live Chat" icon is in the top right corner.

Business Benefits

- Operational schedules provide more current information than traditional paper-based schedules
- Registered users can quickly retrieve updated schedules; the system remembers your last 20 queries

Key Features

- Enter search criteria quickly with a redesigned form in My CargoSmart Center
- Specify the service you want to see in advance
- Sort results by transit time, cut-off date, ETD from the port of load, and ETA at FND
- Filter results by vessel service
- View cutoff dates, terminal locations, and vessel details
- Create a booking directly from the schedule results

Customized Sailing Schedules

Users can create and schedule customized sailing schedule templates to be e-mailed to them on a regular basis. The schedules come in PDF format so that they can be easily printed. The templates can also be shared with other users and associate companies.
