

CargoSmart Shipment Details

CargoSmart Shipment Details lets you look up detailed shipment information through your Internet browser with My CargoSmart Center or directly from your PC with CargoSmart Desktop. You have the flexibility to search for information by shipment numbers supplied by your carriers or by your own reference numbers. If you are using Cargo Tracking, you can quickly jump from the results screen to additional details for the same B/L, booking, or container numbers in Shipment Details. CargoSmart Shipment Details provides complete access to customers who need round-the-clock visibility to their multiple carrier shipment information.

Business Benefits

- Save time from calling your carrier with quick access to detailed shipment information
- Manage freight charges and monitor detention and demurrage expiration dates to keep costs under control

Key Features

- Look up shipment details by B/L, booking, container, associated P.O. numbers and other reference numbers (including customer reference, invoice, forwarder, shipping order, and customs broker license numbers)
- Details include reference numbers, status, parties, routing, freight charges, cargo, container, package, and last free date information for general, reefer, and dangerous goods cargo
